Machine Training Schedule 2017

To our Valued Customers

Absolute Haitian offers flexible training that can be customized to your needs and performed at your location or in our state-of-the-art technical centers. Our goal is to provide your associates with the best possible learning experience.

Classes are conveniently located at our Ohio Technical Center in Parma (Cleveland), Ohio; EPM Technical Center in Batavia (Chicago), IL; and on the east coast at our headquarters in Worcester (Boston), Massachusetts.

- Mars and Jupiter Series classes offer four days of training to cover the machine operation and screens, machine manuals, electrical and hydraulic circuits, machine safety circuit analysis, KEB drive troubleshooting, and preventative maintenance review and recommendations.
- The Venus and Zeres Series classes include in-depth training on the electrical system components including electrical schematics analysis along with basic operations and maintenance instruction.

For in-plant machine training at your facility, we offer the ability to customize your own training with a unique curriculum established with our instructor.

Invest in the resource that matters most! Register for our 2017 classes TODAY.

Sincerely,

Randy L. Wendling
Director of Aftermarket Operations
